## Serco Inc. 401(k) Retirement Plan

### Notes to Financial Statements

1. **Description of the Plan** The following description of the Serco Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General:** The Plan is a defined contribution plan covering substantially all employees of Serco, Inc. (the "Company") and its participating affiliates, except for nonresident aliens, leased employees and employees covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The account balances of certain participants employed by Serco, Inc. whose employment classification changes between union and non-union are transferred between the Plan and Serco Inc.'s plan for Union employees when the classification change occurs.

In 2018, the Company acquired BTP Systems, LLC (BTP). The BTP Systems, LLC 401(k) Plan was terminated and participants were given the option to have their account balance rolled into any qualified plan (including the Plan). Approximately \$3 million was rolled into the Plan during the year ended December 31, 2018, and is included in rollovers on the Statement of Changes in Net Assets Available for Benefits. Effective January 1, 2018, the Plan was amended to recognize prior service with BTP Systems, LLC for eligibility, vesting, and contribution allocations under the Plan.

**Contributions:** Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants that are highly compensated may contribute up to seven percent of pretax annual compensation, as defined in the Plan. Participants that are classified as "Poly cleared" may contribute up to six percent of pretax annual compensation, as defined in the Plan. Roth contributions are also permitted. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). The Plan provides for automatic enrollment. Any newly eligible employee who has not affirmatively elected to contribute to the Plan or has not affirmatively declined to participate in the Plan will be automatically enrolled in the Plan with a three percent withholding of pretax annual compensation. This withholding will increase by one percent each subsequent year until the automatic election reaches a maximum withholding contribution of six percent of compensation. Effective with the amendment on January 1, 2018, the maximum withholding contribution was increased to twelve percent of compensation.

## Serco Inc. 401(k) Retirement Plan

### Notes to Financial Statements

---

The Plan allows for discretionary matching contributions. During 2018, the Company contributed 50 percent of the first 6 percent of compensation that a participant contributed to the Plan. Additionally, the Plan allows for an additional discretionary matching contribution for Poly cleared employees of 50% of the first 6% of compensation that Poly cleared participants contribute to the Plan, provided the participant contributes at least 6% and is employed on the last day of the Plan year. Profit sharing amounts may be contributed at the discretion of the Company. Participants must complete at least 1,000 hours of service during the Plan year and be employed on the last day of the Plan year to receive an allocation of any discretionary profit sharing contribution. There were no such contributions for the Plan year ended December 31, 2018. The Plan provides for Company prevailing wage contributions on behalf of all Service Contract Act ("SCA") employees. The amount of the contribution shall be equal to the balance of the fringe benefit payment for each SCA participant based on the employment classification hourly contribution rate reduced by the amount of benefits provided by the Company. Contributions are subject to certain limitations.

**Participant accounts:** Each participant's account is credited with the participant's contributions, the Company's prevailing wage contributions, as applicable, the Company's discretionary matching contributions, if any, as well as allocations of the Company's discretionary profit sharing contribution, if any, and Plan earnings. Investment earnings and losses are allocated based upon the investment performance of each investment in the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Payment of benefits:** Benefits are payable upon retirement at age 65, disability, death, or termination of employment. Hardship withdrawals and in-service withdrawals at age 59 1/2 are also permitted, subject to provisions described in the Plan document. Withdrawals from rollover contributions are permitted at any time. Benefits are payable in lump sum payments. Partial withdrawals are also permitted, subject to a \$500 minimum.

**Vesting:** Participants are vested immediately in their contributions and Company prevailing wage contributions plus actual earnings thereon. Vesting in the Company discretionary matching and discretionary profit sharing contributions is based on years of continuous service of at least 1,000 hours per year. A participant is 33 percent vested after one year of service is completed, and vests an additional 33 percent per year until full vesting after three years.

## Serco Inc. 401(k) Retirement Plan

### Notes to Financial Statements

---

**Forfeited accounts:** At December 31, 2018 and 2017, forfeited nonvested accounts totaled \$559,635 and \$361,583, respectively. These accounts will be used to reduce future Company contributions or to pay Plan expenses. During 2018, \$476,978 of forfeited nonvested accounts were used to reduce Company contributions, and no forfeited nonvested accounts were used to pay Plan expenses.

**Notes receivable from participants:** Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate published in The Wall Street Journal plus one percent. Principal and interest are paid through payroll deductions.

**Administrative expenses:** Certain expenses of maintaining the Plan are paid by the Company. Participants are also charged an asset based fee for recordkeeping. These fees are included in administrative expenses.

**2. Significant accounting policies**

**Basis of accounting:** The financial statements of the Plan are prepared under the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

**Investment valuation and income recognition:** Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

## Serco Inc. 401(k) Retirement Plan

### Notes to Financial Statements

---

**Notes receivable from participants:** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

**Payment of benefits:** Benefits are recorded when paid.

**Use of estimates:** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Subsequent events:** The Plan has evaluated subsequent events for disclosure in these financial statements through August 21, 2019 which is the date the financial statements were available to be issued.

### Notes to Financial Statements

- 4. Fair value measurements** The Plan reports certain assets at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

The fair value of the shares of mutual funds owned by the Plan is based on quoted net asset values on the last business day of the Plan year.

The fair value of the publicly traded securities held in self-managed accounts are valued at quoted market prices.

| <b>5. Guaranteed investment contract</b> | The Plan participates in a benefit responsive investment contract with Voya Insurance and Annuity Company ("Voya") via an investment in a separate account guaranteed investment contract, the Voya Stabilizer Fund. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Voya is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawals or transfer all or a portion of their investment at contract value. The contract has no maturity date and there is no market value adjustment upon discontinuance. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: termination of the Plan, the Plan no longer being a qualified plan under the Internal Revenue Code and any action taken that would materially affect the rights and obligations of the issuer under the contract. The Plan administrator does not believe that any event that would limit the Plan's ability to transact at contract value with participants is probable of occurring. |
| <b>6. Risks and uncertainties</b>        | The Plan provides for investments in various securities that are exposed to risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in future statements of net assets available for benefits.  |
| <b>7. Plan termination</b>               | Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.  |
| <b>8. Party-in-interest transactions</b> | Certain Plan investments are managed by affiliates of Voya Institutional Plan Services, LLC. Voya Institutional Plan Services, LLC is the recordkeeper as defined by the Plan. The fees paid to Voya Institutional Plan Services, LLC and Voya Retirement Advisors amounted to \$1,120,789 for the year ended December 31, 2018. These transactions qualify as exempt party-in-interest transactions.  |

**Serco Inc. 401(k) Retirement Plan****Notes to Financial Statements****9. Tax status**

The Internal Revenue Service ("IRS") has determined and informed the Plan administrator by letter dated August 2, 2018, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
